Specification

- Hose reel for AdBlue® in steel sheet construction, surface-coated
- 2 ear hose clamp, type CO, 25-28 mm / 0.98-1.10 inch, stainless steel (88 030 878)

Special notes

- The hose reels are exceedingly robust and are notable for their compact design
- All metal parts are phosphatized, undercoated and painted
- The high quality surface treatment of all steel parts ensures high corrosion resistance
- Encased, for wall/floor mounting
- Axle and all parts in contact with media are made of stainless steel. The dimensions chosen by our engineers guarantee an almost unlimited service life.
- The material combination axis / bearing and the spring unit are maintenance-free
- Easy assembly because the weight of the hose reel does not need to be supported while mounting
- All swivel joints are ball bearing based
- High pressure in the supply system does not influence the power needed to rotate the drum
- The hose can be engaged by rotating 1/4 turn
