- Polybag, blank, with Bar code

Special notes

- Operates with greases up to NLGI grade 2 at 20°C
- Designed for use in rough conditions
- Plunger with exactly fitting when using bulk grease or cartridge
- acc. to DIN 1283
- Pump piston with high accuracy of fit to the cylinder
- No dummy (apparent) lubrication. Sealing system: O-ring and ball valve prevent grease compressed in the grease gun head from feeding back.
- Performance unchanged after 40.000 actuating cycles
- Separate filling and ventilation valves on grease gun head
- Grease gun head, zinc die casting Z 410
- Sure grip handling due to deep band knurls
- The ergonomic handle of the plunger rod assists in overcoming the spring load
- Slip resistant handle on grease gun lever
- Enables even under extreme backpressure, a variable lubrication pressure with steady effort applied
- Allows lubrication in difficult to reach locations because the smallest lever operation results in grease being pumped reliably to the lubrication point.
- Fixed cap, with clamp
- High-speed ventilation, by half a rotation of the grease gun tube
